

*In the belief that all people have dignity and worth  
and are entitled to the highest quality of life,  
AIDS Partnership Michigan is committed to  
being an effective and powerful voice;  
providing leadership and education;  
and providing support services and programs  
for those infected and/ or affected by HIV/ AIDS.*

November 2010

Dear \_\_\_\_\_,

You are a friend committed to the end of AIDS.

Because of your generosity, AIDS Partnership Michigan has become the most comprehensive multi-service organization in Michigan. When we began in 1983, we were in the business of assisting our clients' transition. Today we are the leaders of quality medical case management, prevention and education, and also behavioral health services for people living with HIV and for those living in poverty.

Over the past year,

- 90% of our clients attended their medical appointments,
- We tested more than 1,800 persons for HIV, of whom 56% were African Americans, who are most disproportionately affected by HIV/AIDS,
- Our youth services provided medical case management and care to 69 young people ages of 13 - 24 years,
- We provided more than 200 HIV prevention and education events to 7,000 persons, and
- 2,145 calls and emails were answered by the Michigan AIDS Hotline.

Although the medical and research fields have made great strides over the years, education and prevention services for HIV/AIDS are an ongoing need. We create innovative strategies so that young people can comprehend the realities of HIV and therefore reduce their risk of infection. AIDS Partnership Michigan relies on community support to continue these much-needed services.

We thank you for considering AIDS Partnership Michigan as a charity worthy of your support. As always, your donation is tax-deductible subject to current laws. If you have any questions, please call us at the phone numbers below.

Thank you,
